

# Spiroquant A+ Flow Sensor

SENSING

ANALYSIS

DELIVERY

*Fast response time  
and long durability.*

## **SPIROQUANT A+ OVERVIEW**

The Spiroquant A+ flow sensor is designed for measuring volume flows in the field of anesthetics / ventilation. The Spiroquant A+ is a reliable flow sensor with a fast response time. It has accurate low pressure drop and temperature compensation. The Spiroquant A+ is DEHP free and 100% tested and inspected.

## **PART NUMBERS**

Spiroquant A+ Flow Sensor. . . . . R122P01

---

## Specifications

Measurement Principle	Constant temperature hot wire - anemometry
Application	Dräger [843735 Sensor]
Accuracy	± 8% reading
Added Resistance	< 2.5mbar
Pressure Range	± 100mbar
Connections	Dräger specific
Operation Temperature	+15 to +40°C
Storage Temperature	-20 to +40°C
Shelf Life	5 years

---
