

# Maxtec $\text{FiO}_2$ Sensors

*The most reliable, long-lasting sensors.*

Maxtec oxygen sensors are recognized as the number one choice for sensor replacement by hospitals and equipment manufacturers worldwide. No matter the application, you can trust Maxtec sensors to provide longer life and more stable readings to keep your equipment running smoothly. The **MAX-250 / MAX-550** Series use a patented weak-acid technology to provide a more stable signal, longer sensor life, and withstand high levels of  $\text{CO}_2$  and other acidic gases. Maxtec also offers lead-free and ultrasonic gas-sensing products.

▶ **Long life**

*Minimize frequent, costly sensor replacement*

▶ **Stable Readings**

*Provides  $\text{O}_2\%$  reading you can trust*

▶ **Compatible**

*Replacements for all common applications*

▶ **Backed by Maxtec**

*Up to 24-month warranty on each sensor*
